How to use this guide

This guide lists 255 side hustles you can start around a day job. 75 are platforms you join, from apps that pay for quick tasks to AI training work that pays by the hour. 180 are small side projects you can build with AI and sell, such as tools for Etsy sellers or niche affiliate sites.

Side hustles are grouped into chapters the same way as on our site. Inside each chapter they run from easiest to start to hardest. Click any platform name or web address to go straight to its sign-up page.

● Easy

Sign up and start the same day, with no test.

● Medium · Strict

A short test or profile review, up to interviews and ID checks.

● Build with AI

A small tool or site you build once, then charge for or earn commissions from.

About pay figures. Platform pay is the average reported by each platform or its users. Side project prices are suggested starting prices. Pay and rules change often, so please research each side hustle before starting.
