The Suno Prompt Writing Guide for 2026

A Suno prompt is a short description of the song you want: its genre, mood, vocals, instruments, tempo and shape. This guide covers the parts of a strong music prompt, genre and mood pairings, vocal and structure choices, production tags, ten ready prompts, and a page to plan your song.

The six parts of a strong music prompt

1. **Genre.** Pop, hip-hop, EDM, rock, acoustic, jazz or a blend like "pop and EDM".
2. **Mood.** One clear feeling: uplifting, sad, chill, dark, romantic, energetic.
3. **Vocals.** Male, female, a duet, or instrumental with no vocals.
4. **Instruments.** Two or three you can hear: bright synths, warm bass, acoustic guitar.
5. **Tempo and energy.** Slow, mid-tempo, driving, high-energy.
6. **Shape.** Chorus-driven, verses only, a full song, or a seamless loop.

Write them as short phrases with commas between them, 20 to 40 words in all. Describe the sound, never a real artist or band.

Genre and mood pairings

Genre	Best mood	Vocal style	Structure
Pop	Uplifting, Energetic	Male or female vocal	Chorus-driven
Hip-Hop	Energetic, Dark	Male vocal	Verse only
EDM	Energetic, Uplifting	Instrumental	Loopable
Acoustic	Romantic, Melancholy	Duet, female	Full song
R&B	Romantic, Chill	Female vocal, duet	Chorus-driven
Rock	Angry, Energetic	Male vocal	Full song

Vocals, structure and production tags

Vocals: name the voice ("soaring female vocals", "deep male voice"). For background music, say "instrumental" and name the lead instrument instead. **Structure**: "catchy chorus" for a hit, "seamless loop" for study or meditation tracks. **Production tags** add texture: lo-fi beat, retro synths, guitar solo, 80s vibe, heavy bass, strings section, vocal harmonies, reverb, minimalist.
