The Xbox Username Guide for 2026

Your Xbox username is what other players see in lobbies, in party chat and on leaderboards, and it often follows you to Twitch and Discord. This guide covers the Xbox gamertag rules, username ideas by style and format, the styles that suit each platform and a page to shortlist your favourites.

The Xbox gamertag rules

1. **Letters, numbers and spaces only.** No underscores, hyphens, dots or other symbols. Use a space or CamelCase to split words, like Night Rider or NightRider.
2. **Up to 15 characters.** Spaces count, so ShadowRush 99 is 13.
3. **Nothing offensive.** Names that break the Xbox community rules can be changed for you.
4. **Check it is free.** Type the name in the Xbox app or on your console before you claim it, because names get taken fast.
