16 FREE PROMPTS FOR CLAUDE OPUS 5.5

The complete *Claude Opus 5.5* prompt guide

Claude Opus 5.5 is Anthropic's model for long coding tasks and careful knowledge work. Every prompt in this guide is ready to send. Copy one into the Claude Opus 5.5 chatbot on AIFreeForever, add your own file or text, and press Enter.

Code review

Free Claude Opus 5.5 Code Review Prompt

Review this code like a senior engineer. List the bugs first, then the risks, then the parts that are hard to read, and show a fixed version at the end: [paste your code]

Free Claude Opus 5.5 C to Rust Prompt

Translate this C function to Rust and explain each change: [paste the C function]

Free Claude Opus 5.5 Error Fix Prompt

This error appears when I run my app: TypeError: Cannot read properties of undefined (reading 'map'). Explain the most likely causes and how to find which one it is in my code: [paste the component]

Reports

Free Claude Opus 5.5 Business Report Prompt

Turn these notes into a one page business report with a title, a three line summary at the top, headings and a short list of next steps: [paste your notes]

Free Claude Opus 5.5 Annual Report Prompt

Read the annual report I attached and write a half page summary for a busy manager. Put the three most important numbers first and explain each one in one sentence.

Free Claude Opus 5.5 Clear Writing Prompt

Rewrite this paragraph so the key point comes first, remove jargon, and keep it under 90 words: [paste your paragraph]

Spreadsheets

Free Claude Opus 5.5 Data Cleaning Prompt

Read the Excel file I attached. Tell me which column has missing values, which rows look like duplicates, and give me a cleaned table.

Free Claude Opus 5.5 Excel Formula Prompt

Write an Excel formula that adds up column C only where column A says North and column B is in March 2026. Explain each part of the formula.

Charts

Free Claude Opus 5.5 Chart Values Prompt

Look at the chart I attached. Read the exact value of each bar, put them in a table, and tell me which two values are closest.

Free Claude Opus 5.5 Dashboard Prompt

Read the dashboard screenshot I attached and write three short findings a manager should know, each with the number that supports it.

Writing

Free Claude Opus 5.5 Cover Letter Prompt

Write a clear cover letter for a junior data analyst job. Use these facts: I know SQL and Excel, I built a sales report for a local shop, and I finish my degree in June. Keep it under 250 words.

Free Claude Opus 5.5 Announcement Prompt

Write a short, friendly product announcement for a new feature that lets users export their data to CSV. Start with what the user gets, then how to use it in two steps.

Free Claude Opus 5.5 Spanish Prompt

Answer in Spanish: explain in five short bullet points how to prepare for a job interview.

HTML

Free Claude Opus 5.5 Browser Game Prompt

Make a simple block building game that runs in my browser, with a day and night cycle. Put it all in one HTML file.

Free Claude Opus 5.5 Three.js Prompt

Write a Three.js scene of a pelican riding a bicycle, in one HTML file I can open in my browser.

Free Claude Opus 5.5 Animation Prompt

Make a 20 second animation of glass tiles falling into a pattern, in one HTML file with plain JavaScript.
